

WALK ONE

Neal's Bridge Walk

Start opposite the Shop in Wilmcote and follow the signs around behind the old Chapel. Follow the marked path on the left until you reach a field. Keep the hedge to your right and walk along this field, then over two stiles, into a large meadow. Keep walking straight ahead with the hedge now on your left.

Go into the next field and just before the hedge (which juts out in front of you), turn right and head towards the disused cottage (Broadlow) passing the waymarkers in the field. Go through the gate and bear left then walk round behind the barn on the right and along the side of the field. Before the end of the field is reached, turn right and go over Neal's Bridge.

Carry straight on over the stile, cross a bridge then the Railway line (CARE!). Continue ahead to the site of Hardwick Farm, and then turn right up the concrete lane. At the top go left around the corner then in 50 metres take the path to the right, down to the brook and up the other side. Go over the stile and turn right following the path.

Cross the Railway line once more (CARE!) and then straight across a private road, eventually reaching the canal. Turn left along the towpath, leave the canal at Featherbed lane, and then turn right to go back to the start.
